Rejuvra® Herbicide
EPA Reg. No. 101563-208

For the tank mix application of Rejuvra plus imazapic for bulbous bluegrass control or suppression on Rangeland, Pastures, Conservation Reserve Program (CRP) lands, and Natural Areas.

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA. This product bulletin should be in the possession of the user at the time of application of the product. All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its label.

Rejuvra Herbicide may be tank mixed with imazapic (Plateau) to expand control or suppression of bulbous bluegrass (*Poa bulbosa*) in rangeland, pastures, conservation reserve program (CRP) lands, and natural areas. Apply Rejuvra Herbicide at rates of 5 to 7 fluid ounces product per acre in a tank mix with imazapic (Plateau) at the rate of 4 to 7 ounces per acre. For best results, applications should made in the spring or fall when bulbous bluegrass is actively growing.

IMPORTANT PRECAUTIONS:
Perennial grass injury may occur with tank mix, especially in the spring application timing or when more sensitive perennial grass species are present, such as smooth brome and crested wheatgrass. To reduce perennial grass injury, lower end of rate range should be used for applications made to sandy soils. Rainfall is needed to incorporate Rejuvra into the soil for best results. Applications should be made according to directions on the Rejuvra and Plateau labels.

REJUVRA RATE (OZ/A)	PLATEAU RATE (OZ/A) *
5	4-7
7	4-7

***Not recommended to exceed 4 oz/A of Plateau when sandy soils are present to reduce perennial grass injury.

ADDITIONAL INFORMATION
Refer to the labels for Rejuvra Herbicide and Plateau Herbicide for additional information on use directions, application methodology, adjuvants and precautions.

For MEDICAL And TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-424-9300.
For PRODUCT USE Information Call 1-800-331-2867

As with any crop-protection product, always read and follow label directions.
