

The Granular Insecticide Built for Speed, Residual and Consistent Performance

Talstar® XTRA featuring Verge™ Granule Technology combines zeta-cypermethrin and bifenthrin in a patented formulation that delivers both rapid knockdown and long-lasting residual control.

Many granular insecticides force applicators to choose between fast results and lasting performance.

Talstar XTRA delivers both.

DUAL-ACTIVE CHEMISTRY

ZETA-CYPERMETHRIN

- Rapid knockdown of target pests
- Accelerates insect mortality
- Delivers visible results fast

BIFENTHRIN

- Proven Talstar residual performance
- Long-lasting protection against reinfestation
- Trusted by lawn care and pest management professionals for decades

FAST KNOCKDOWN WITHOUT SACRIFICING RESIDUAL

Talstar XTRA is proven to control fire ants in 15 minutes or less while maintaining residual performance that remains effective for up to four months.

Unlike products focused solely on speed or residual, Talstar XTRA delivers both in a single application.

WHY IT MATTERS

- ✓ Faster control of active infestations
- ✓ Extended residual protection
- ✓ Broad-spectrum insect control
- ✓ Reliable long-lasting performance
- ✓ Outstanding value per treated area

BROAD-SPECTRUM CONTROL

Controls key turf perimeter pests including:

- | | | |
|-----------------|----------------|--------------|
| • Fire Ants | • Earwigs | • Millipedes |
| • Chinch Bugs | • Armyworms | • Scorpions |
| • Mole Crickets | • Cutworms | • And more |
| • Fleas | • Sod Webworms | |
| • Ticks | • Crane Flies | |

TALSTAR XTRA

Fast When You Need It. Residual When You Depend On It.

Better Granules Deliver Better Control

POWERED BY VERGE™ GRANULE TECHNOLOGY

Superior chemistry deserves a superior carrier. Talstar XTRA utilizes Verge Granule Technology to help ensure the active ingredients are delivered more consistently across the treatment area.

THE BENEFITS

More active ingredient reaches the target

Cleaner loading and application

Less buildup on spreaders

Improved applicator experience

Reduced product waste

VIRTUALLY DUST-FREE PERFORMANCE

One of the biggest challenges with traditional granular products is dust production.

Talstar XTRA featuring Verge Technology produces up to 137 TIMES LESS DUST than competitive granules (based on internal testing), helping keep more product in the target zone where it can work.

MORE CONSISTENT COVERAGE

Verge granules feature:

- Uniform size
- Uniform shape
- Improved ballistic performance
- Better spread patterns
- Consistent active ingredient distribution

THE RESULT

More consistent coverage leads to:

- ✓ More consistent insect control
- ✓ Fewer gaps in application
- ✓ Better performance across the treatment area
- ✓ Greater confidence in every application

ADDITIONAL PERFORMANCE ADVANTAGES

RAPID GRANULE BREAKDOWN

Granules quickly disintegrate after watering, releasing active ingredients where pests are active.

VIRTUALLY ODORLESS

A cleaner, more pleasant application experience.

NON-STAINING

Granules blend into the landscape without leaving an unsightly mess.
