## How it works: Earn with every eligible product purchase

As part of the Envu Horizon Annual Rewards program, purchase qualifying Envu products across the pest and lawn portfolio throughout the year to build your tier level and multiply your earning potential.

All qualifying purchases made by eligible lawn care operators and pest management professionals through authorized distributors or agents earn tier credits (ranging from 10–10,000 per unit) that contribute to your tier level. As your credits increase, your level rises and acts as a multiplier on rebates earned from eligible products.

Explore your rebate potential with the [rewards calculator](#) on Envu Horizon.
