

Stay ahead of weeds and on top of your work

What is Marengo?

Marengo is a pre-emergent herbicide for the control of annual grasses, annual sedges, and annual broadleaf weeds in production ornamentals, conifers, Christmas trees, greenhouse floors, production sites and hardscapes. Marengo effectively controls over 98 weed species and is labeled for use on over 270 field grown and container ornamentals.

How does the product work?

Indaziflam, the active ingredient in Marengo herbicide, provides a unique mode of action, inhibiting root development during germination by blocking cellulose biosynthesis. Marengo provides up to eight months of continuous protection against weeds by preventing germination—even during the rainy season—reducing the need for repeat applications and hand weeding. Longer control means reduced labor and lower costs, making Marengo the most cost-effective herbicide on the market (Mathers, 2025).

Best Uses

Broadcast or directed spray in nurseries, greenhouses and non-crop settings to selectively prevent the germination of broadleaf weeds, grasses and annual sedges

- Apply in fall for continuous weed control into the following growing season.
- Marengo works best once it has been activated by 0.25" of rainfall or irrigation.

General Use Notes

IRAC Code: 29

REI: 12 hr

Up to 8 months of residual control

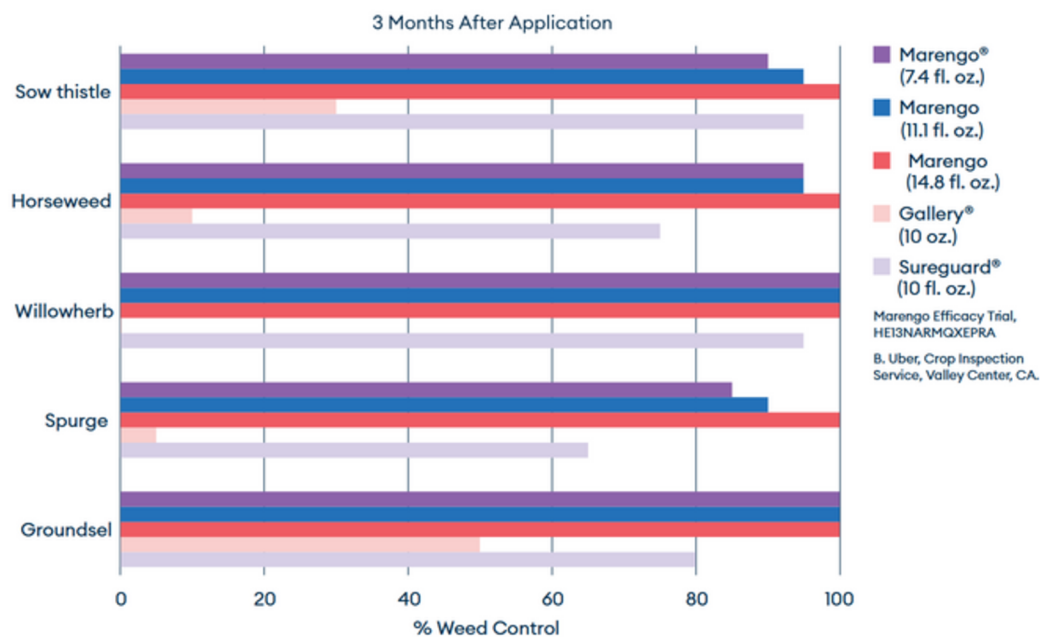

Available as either flowable (Marengo FLO) or granule (Marengo G)

- Reduces labor costs with fewer applications and less clean up work
- Labeled for use on 270 ornamental plants
- Indaziflam has a unique mode of action making it ideal for rotation and resistance management
- No signal word
- Label allows for trials on plants not listed as tolerant

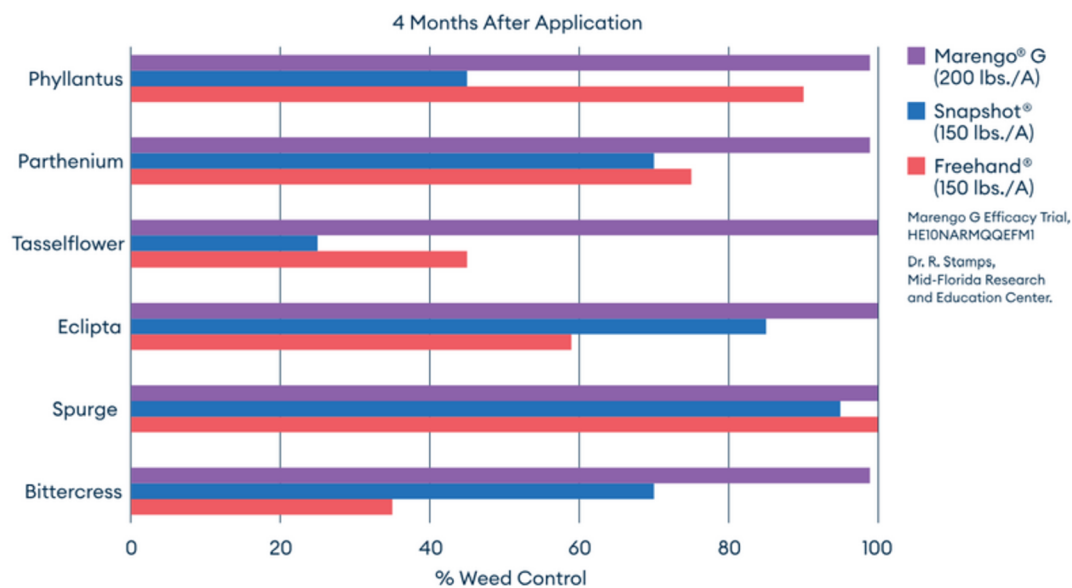

PPE: Applicators and other handlers must wear long-sleeved shirt and long pants, and shoes plus socks.

- Effective on hard-to-control weeds such as eclipta, bittercress, groundsel, oxalis, marestail, spurge, crabgrass and annual bluegrass
- Over-the-top applications on certain species with Marengo G.

Preemergence Weed Control With Marengo

Preemergence Weed Control With Marengo® G

*Based on Envu internal market research

**Based on label claims, each product will last up to the number of months indicated in the table.
