Only Maxforce® products give you the power to succeed at every stage of roach control

Whatever your roach challenge, there's a Maxforce® solution for it. All four products deliver the exclusive Maxforce Domino Effect®. Roaches take the bait back to the colony and transfer the AI, resulting in better secondary results – even in hard-to-access areas. Plus, they're all labeled for indoor and outdoor use and HACCP-certified for food-handling areas.
