

Product Information Sheet

- Active Ingredient: Spirotetramat 22.4%
- RAC Group: 23
- EPA Registration Number: 432-1471
- Formulation: Suspension Concentrate
- Signal Word: Caution
- REI: 24 hours, or no REI when used as a drench treatment

Kontos® provides highly-effective control of sucking pests with true systemic activity.

Best Uses

- Alternative to neonicotinoid chemistry
- Foliar or drench control of many sucking pests including adelgids, aphids, leafhoppers, mealybugs, psyllids, scales (crawlers), thrips, whiteflies and mites
- Ideal for use in IPM programs
- Rotational chemistry to help minimize potential for insect resistance
- For use in nurseries, greenhouses and interior plantscapes on ornamentals, and non-bearing fruit and nut trees

Attributes

- True systemic movement in the plant xylem and the phloem, protecting existing and new plant tissue
- Up to 30 days of insect control
- Can be applied as spray or drench; drench applications have no REI
- Provides minimal risk to natural predators when used as directed

Application Rates

- For foliar applications, use 1.7-3.4 fl. oz./100 gal. of water
- For drench applications, see table on back page
- Kontos is available in a 250-ml. bottle

Drench Applications

Use Pattern	Container Size	# of pots treated with 1.7-3.4 oz. of product
Small Containers Herbaceous Species	2 inches	3,000
	3 inches	2,000
	4 inches	1,500
	5 inches	1,200
	6 inches	1,000
	7 inches	850
	8 inches	750
	9 inches	650
	10 inches	600
	11 inches	550
	12 inches	500
	Small Containers Woody Species	2 inches
3 inches		1,350
4 inches		1,000
5 inches		800
6 inches		650
7 inches		550
8 inches		500
9 inches		450
10 inches		400
11 inches		350
12 inches		300
Large Containers		1 gallon
	2 gallon	280-210
	3 gallon	220-165
	5 gallon	160-110
	7 gallon	100-75
	10 gallon	60-45
	15 gallon	40-30
	20 gallon	20-15
