

Make mosquitoes work for you.

The In2Care® Mosquito Station turns mosquitoes into part of the solution, continuously spreading control where professionals can't. **Two powerful actives in one powerful station** kill adult mosquitoes and prevent larvae from ever becoming biting adults without harming the environment.

**Create a system of 24/7 mosquito control.
No extra time. No extra labor.**

Monthly Revenue

Smarter mosquito control that fits recurring service models, cuts callbacks, and drives revenue growth.

Expanded Defense

Works as a standalone or with adulticides for broader, longer-lasting coverage.

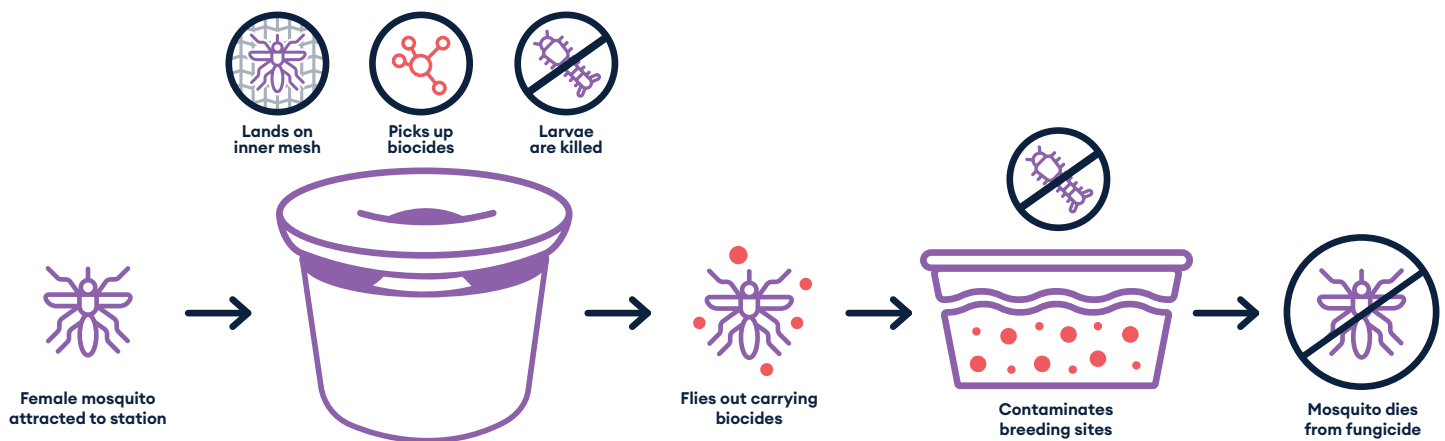

Discover the power and efficiency of smarter mosquito control

- + **Dual-power actives** stop mosquitoes at two stages – adult mosquitoes and larvae.
- + **Always-on autodissemination** delivers 24/7 control beyond the station to hidden breeding sites.
- + **Targeted precision** eliminates Aedes and Culex mosquitoes without harming pollinators or yards.
 - Prevents emergence of adult Aedes mosquitoes for up to 8 weeks and Culex mosquitoes for up to 4 weeks before replacement of sachet is needed.
- + **Durable, low-maintenance, eco-friendly design** installs quickly, no batteries, no power needed.
- + **Ideal for outdoor use** in yards, gardens, parks, ponds, outdoor patios and decks.

Turn mosquitoes into their own worst enemy.

How it works:

The In2Care® Mosquito Station turns mosquitoes into carriers of control, stopping future generations before they breed.
